Project Fact Sheet

**Name:** Burlington Danes Medical Research Facility  
**Location:** Hammersmith  
**Number:** HMBDo201  
**Stage:** In Use  
**Project Champion:** Prof. Leszek Borysiewicz  
**Project Director:** Prof. Steve Smith  
**User Co-ordinator:** Dr. Matt Lee  
**Project Manager:** Julie Wood

### Project Update:
- Building works were completed in July 2006  
- Handover of the building followed in August 2006, with occupation coinciding with the beginning of the Autumn Semester in the college.  
- The building is currently in the Defects stage.

### Project Brief:
A state of the art facility, at Hammersmith Hospital Campus, providing the UK with a centre of excellence for clinical imaging. Researchers and staff from Imperial College London, Medical Research Council (MRC) and GlaxoSmithKline (GSK) combined to form a major research partnership housed in two buildings connected by a shared entrance and circulation area.

The new centre will build on Hammersmith Hospital's strong clinical trials reputation to create a global centre of medical imaging excellence. The unique research collaboration in medical imaging between Imperial College London and GSK will have a long term research focus on cancer, stroke, neurological diseases such as Parkinson's and multiple sclerosis and psychiatric diseases. The GSK Clinical Imaging Centre will use and advance the latest technologies in magnetic resonance imaging (MRI) and positron emission tomography (PET). GSK will invest a further £16 million in the latest PET and MRI imaging equipment. The Imaging Centre will be part of a new £60m research development by Imperial College, on the former Burlington Danes school site adjoining Hammersmith Hospital, to be completed by 2006.

### Construction Project Team:
- **Project Manager:** Arup
- **Contractor:** Shepherd Construction
- **Architect:** Sheppard Robson
- **M & E Contractor:** Haden Young
- **M & E Engineer:** Norman Disney + Young
- **Cost Consultant:** Turner & Townsend
- **Structural Engineer:** Adams Kara Taylor

### Project Facts & Figures:
- **Budget:** £60 000 000  
- **Funding Source:** SRIF II (Imperial College), GSK, MRC

### Construction Project Programme:
- **Start on Site:** February 2004  
- **End Date:** August 2006  
- **Occupation Date:** September 2006
